Is Book Ko Kaise Use Karein

> read once. apply daily. earn steadily.

Ye guide un logon ke liye hai jo theory nahi, practical results chahte hain. Har page par ek topic hai: chhoti explanation, step-by-step method, copy-paste prompt aur kamai ka clear idea. Prompt use karne se pehle [square brackets] ki jagah apni details bharo. Prompts English mein diye gaye hain kyunki AI tools English prompts par best results dete hain. Aap chahein to unhe Hinglish mein bhi try kar sakte ho.

1 Ek raasta chuno

Table of contents dekho aur EK income skill chuno: writing, design, marketing, ads, websites ya freelancing. Focus variety se behtar hai.

2 Foundation pakka karo

Pehle Chapter 1 aur 2 padho. AI, internet aur prompting samajhne se baaki sab chapters better kaam karte hain.

3 Roz practice karo

Roz ek page karo. Prompt chalao, output edit karo aur best results ko portfolio samples ki tarah save karo.

4 Apni skill becho

Chapter 8 se portfolio banao, clients dhundo, price set karo aur professionally deliver karo.

5 Track karo aur sudharo

Likho kya try kiya, kya chala aur clients ne kya kaha. Har hafte ek cheez improve karo.

! IMPORTANT NOTE

AI skills se income aapki mehnat, quality, niche aur market par depend karti hai. Ye book methods deti hai, guarantee nahi. AI output hamesha verify karo, copyright aur platform rules respect karo, client data protect karo aur legal, tax aur financial matters mein professional se salah lo.

7 Golden Rules: AI Se Kamai

> mindset jo earners ko tool collectors se alag karta hai

1 AI leverage hai, shortcut nahi

Ye aapki existing skill ko multiply karta hai. Real knowledge aur taste ke saath use karo.

2 Problem solve karo, result becho

Clients outcomes ke paise dete hain: zyada leads, bacha hua time, behtar design. Apna result clearly batao.

3 Hamesha edit aur verify karo

Facts, tone aur originality review karo. Aapka quality control hi asli product hai.

4 Ek niche mein specialize karo

Dentists ke liye likhna ya cafes ke liye design karna sabke liye sab kuch karne se zyada kamata hai.

5 Systems aur prompt library banao

Jo chale use save karo. Repeatable workflows se har baar delivery fast hoti hai.

6 Ethical aur transparent raho

Copyright, privacy aur platform rules respect karo. Trust long-term income bachata hai.

7 90 din consistent raho

Zyada tar log compounding shuru hone se pehle chhod dete hain. Roz seekho, publish karo, pitch karo aur improve karo.

01 AI Kya Hai, Sach Mein?

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> Artificial Intelligence ek software hai jo bahut saare data se patterns seekhta hai aur unke basis par predict ya generate karta hai. ChatGPT, Claude aur Gemini jaise tools agla best word predict karte hain, aur image tools pixels. AI jaadu nahi hai aur insaan bhi nahi. Ye ek bahut fast assistant hai jise clear direction chahiye. Jab ye samajh aa jaye, tab darr khatam hota hai aur AI aapka leverage ban jata hai.

// STEP-BY-STEP

1. AI ke 3 types samjho: text, image, audio/video
2. Ek free chat tool 1 hafte tak roz use karo
3. Note karo AI kahan achha hai aur kahan fail hota hai
4. Apni life ke 5 kaam likho jo AI se fast ho sakte hain

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Explain [topic] to me like I am 12 years old, then give me
a 5-point summary and 3 real-life examples.
```

$ KAMAI KAISE HOGI

Log tools ke nahi, results ke paise dete hain. Jo AI samajhta hai wo businesses ko time bachane wali services bech sakta hai.

PRO TIP

AI ko intern samjho: tez aur smart, lekin uska kaam hamesha khud check karo.

02

LLM Kaise Kaam Karta Hai

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> Large Language Model (LLM) ko books, websites aur code par train kiya jata hai. Ye text ko tokens mein todta hai aur predict karta hai ki aage kya aayega. Isko real duniya ka live knowledge nahi hota, isliye ye confidence ke saath galat jawab bhi de sakta hai. Isiliye achhe prompts, context aur fact-checking bahut zaroori hain.

// STEP-BY-STEP

1. Tokens samjho: lagbhag 1 token = 3/4 word
2. Context window samjho: model ek baar mein kitna text dekh sakta hai
3. Naye models web browse aur files padh sakte hain
4. Hamesha context, examples aur format batao

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Act as an AI teacher. Explain tokens, context windows and hallucinations with a simple analogy for each.
```

$ KAMAI KAISE HOGI

Clients us insaan ko value dete hain jo AI simple bhasha mein samjha sake. Small businesses ke liye AI workshops aur training ek badhti hui service hai.

PRO TIP

Jitna relevant context doge, utna better output milega. Vague input ka matlab vague output.

03 AI Tools ki Duniya

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> AI tools ke clear groups hain: chat assistants (ChatGPT, Claude, Gemini), image generators (Midjourney, DALL-E, Ideogram), design tools (Canva AI, Adobe Firefly), video tools (Runway, CapCut), voice tools (ElevenLabs), coding tools (Cursor, Copilot) aur automation tools (Zapier, Make). Aapko sab nahi chahiye. Har kaam ke liye ek strong tool kaafi hai.

// STEP-BY-STEP

1. Apni target income skill likho: writing, design, ads ya web
2. Us skill ke liye ek main aur ek backup tool chuno
3. Pehle free plan use karo, income aane par upgrade karo
4. Har 3 mahine mein toolkit review karo, tools tezi se badalte hain

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Compare the top 5 AI tools for [my skill]. Give a table with price, strengths, weaknesses and best use case.
```

$ KAMAI KAISE HOGI

Aapka toolkit aapki factory hai. Ek chhota aur sahi stack ek insaan ko poori team jaisa output deta hai.

PRO TIP

Das tools halka-halka seekhne se behtar hai ek tool ko deeply master karna.

04 Internet Kaise Kaam Karta Hai

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> Internet duniya bhar ke computers ka network hai. Jab aap web address type karte ho, browser DNS server se naam ko IP address mein badalta hai, phir server se page maangta hai, aur server HTML, CSS aur JavaScript bhejta hai. Ye chain samajhna website banane, problems fix karne aur clients se confidently baat karne mein help karta hai.

// STEP-BY-STEP

1. Terms seekho: browser, server, IP address, DNS, HTTP aur HTTPS
2. Kisi website par Inspect khol ke uska code dekho
3. Samjho CDN speed kaise badhata hai
4. Cookies aur tracking kaise kaam karti hai, padho

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Explain step by step what happens in the 2 seconds after I type a website address and press Enter. Use a simple analogy.
```

$ KAMAI KAISE HOGI

Basic internet knowledge se aap website setup, domain fixes aur speed optimization jaisi services de sakte ho, jo small businesses ko hamesha chahiye.

PRO TIP

Pasandida websites par Inspect tool use karo. Ye sabse fast free design aur code lesson hai.

05

Domain, Hosting aur Website

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> Domain aapka address hai (example.com). Hosting wo zameen hai jahan website rehti hai. Website builder ya WordPress jaisa CMS building hai. Zyada tar beginners aur clients in teeno mein confuse hote hain, aur yahi aapke liye service opportunity hai.

// STEP-BY-STEP

1. Chhote aur brandable words se domain naam search karo
2. Shared hosting, cloud hosting aur website builders compare karo
3. DNS settings se domain ko hosting se connect karo
4. SSL install karo taaki site par https aur lock dikhe

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Suggest 20 brandable domain names for a [business type] in [city or niche]. Keep them short, easy to spell and professional.
```

$ KAMAI KAISE HOGI

Domain aur hosting setup ka charge lo, aur saalana maintenance plan se monthly recurring income banao.

PRO TIP

Domain hamesha client ke naam par register karo, apne naam par nahi. Isse trust banta hai.

06

Search Engine aur Discovery

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> Google, YouTube, Bing aur Amazon sab search engines hain. Log apni zarurat type karte hain aur engine wahi pages dikhata hai jo sabse helpful lagte hain. Ranking relevance, quality, speed aur trust par depend karti hai. AI search ab answers summarize bhi karta hai, isliye clear aur helpful content pehle se zyada jeet raha hai.

// STEP-BY-STEP

1. Search intent samjho: informational, commercial, transactional
2. Target keyword ke top 3 results study karo
3. Dekho Google kya dikhata hai: snippets, videos, questions
4. Aisa content banao jo sawal ka jawab behtar aur fast de

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Analyze the search intent behind the keyword [keyword].
What does the searcher want, what format ranks, and what
should my page include?
```

$ KAMAI KAISE HOGI

Search traffic free aur long-lasting hota hai. Content aur SEO freelancers aur agencies mein sabse zyada demand wali skills hain.

PRO TIP

Pehle intent match karo. Galat intent ka perfect page kabhi rank nahi karta.

07 Social Media Algorithm

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> Har platform watch time, saves, shares, comments aur early engagement jaise signals se decide karta hai kya dikhana hai. Short video platforms retention ko reward karte hain, LinkedIn conversation ko, Instagram saves aur shares ko. Aap algorithm ko haraate nahi, viewer ko itna achha serve karte ho ki algorithm khud push karta hai.

// STEP-BY-STEP

1. Ek platform par niche ke top 10 posts study karo
2. Hook, length, format aur call to action note karo
3. Result judge karne se pehle 30 din consistently post karo
4. Pehle ghante mein har comment ka reply do

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Analyze these 5 high-performing posts [paste text].
Identify the hook style, structure and emotion, then give me
10 original ideas using the same patterns.
```

$ KAMAI KAISE HOGI

Local businesses ke liye social media manage karna ek stable monthly retainer hai, aur AI se ye zyada profitable ho jata hai.

PRO TIP

Pehle ek platform par kaam karo, jab chal jaye tab baaki par repurpose karo.

08 Online Paisa Kaise Receive Karein

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> Online kamane ke liye paisa receive karne ka tarika chahiye. Common options hain bank transfer, UPI, PayPal, Payoneer, Wise aur Upwork ya Fiverr ke wallets. Har ek ki fees, limits aur currency rules alag hain. Sahi choice saal bhar mein hazaron bacha sakti hai.

// STEP-BY-STEP

1. International payments accept karne wala verified bank account rakho
2. Payoneer ya Wise account kholo aur KYC complete karo
3. Foreign income aur taxes ke local rules samjho
4. Har invoice aur payment ki ek simple sheet rakho

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a simple invoice template for a freelance [service] business with payment terms, late fees and bank details placeholders.
```

$ KAMAI KAISE HOGI

Professional payment setup se international clients milte hain, jo aksar local clients se kai guna zyada pay karte hain.

PRO TIP

KYC pehle hi complete kar lo. Zarurat ke waqt verification mein din lag sakte hain.

09 AI Use Karte Waqt Safety aur Privacy

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> Passwords, private client data, bank details ya confidential documents public AI tools mein paste mat karo, jab tak tool privacy ki clear guarantee na de. Scams mein ab AI voices aur fake profiles bhi use hote hain. Safe rehna aapki reputation bachata hai, jo freelancer ki sabse badi asset hai.

// STEP-BY-STEP

1. Jahan option ho, chat history ya training use band karo
2. Client data paste karne se pehle naam aur numbers hata do
3. Har account par two-factor authentication lagao
4. Anjaan payment ya job request ko verify karke hi reply do

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Review this text and rewrite it with all personal and
confidential details replaced by placeholders: [paste text].
```

$ KAMAI KAISE HOGI

Jo freelancers client data protect karte hain, unpar clients trust karte hain. Proposal mein apni privacy practices likhne se high-paying kaam milta hai.

PRO TIP

Agar deal bahut achhi lage ya pehle paise maange, to door raho.

10 AI ki Limits: Galtiyan, Bias, Copyright

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> AI facts bana sakta hai (hallucination), training data ka bias repeat kar sakta hai, aur aisa text ya images bana sakta hai jo existing kaam se milte hon. Jo aap publish karte ho, uski zimmedari aapki hai. Facts check karo, apna experience jodo aur har tool ka commercial-use license padho.

// STEP-BY-STEP

1. Har number, naam, date aur quote alag source se verify karo
2. Apne examples, stories aur opinions add karo
3. Outputs bechne se pehle tool ke commercial terms padho
4. Jahan client ya platform maange wahan AI use disclose karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Fact-check the following text. List each claim, mark it as likely true, uncertain or likely false, and tell me what to verify: [paste text].
```

$ KAMAI KAISE HOGI

Quality control aapki asli taakat hai. Generate sab kar lete hain, lekin edit, verify aur polish karne wale kam hain, aur unhe premium rates milte hain.

PRO TIP

Insaani judgment plus AI speed, dono se behtar hai kisi ek se.

11

Apna AI Workflow Banayein

CH 01 | AI AUR INTERNET KI BASIC SAMAJH

15 MIN ACTION

// SAMAJH LO

> Workflow idea se finished result tak ka repeatable raasta hai. Jaise: AI se research, AI se outline, AI se draft, khud edit, AI se design, tool se schedule. Workflow likh kar rakhne se aap fast aur consistent rehte ho, aur baad mein helpers ko train kar sakte ho.

// STEP-BY-STEP

1. Ek service chuno jo bechni hai
2. Use request se delivery tak 5 se 7 steps mein todo
3. Har step ke liye best tool ya prompt chuno
4. Apna time naapo aur har hafte sabse slow step improve karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a step-by-step workflow for delivering a [service] project to a client using AI tools. Include tools, prompts, time estimates and quality checks.
```

$ KAMAI KAISE HOGI

Documented workflow ek productized service ban jata hai jise aap price, repeat aur scale kar sakte ho.

PRO TIP

Apne best prompts ek document mein save karo. Prompt library ek business asset hai.

01

Perfect Prompt ki Anatomy

CH 02 | PROMPT ENGINEERING MASTERY

15 MIN ACTION

// SAMAJH LO

> Strong prompt ke 5 parts hote hain: Role (AI kaun hai), Task (kya karna hai), Context (background), Format (jawab kaisa chahiye) aur Constraints (limits jaise length ya tone). Koi part missing ho to answer generic aata hai. Har baar ye checklist use karna results sudharne ka sabse fast tarika hai.

// STEP-BY-STEP

1. Role se shuru karo: Act as an expert [profession]
2. Task ek clear sentence mein likho
3. Audience, goal aur background Context mein do
4. Format batao: table, bullets, steps, word count

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Act as a senior [role]. Task: [what you want]. Context:
[audience, goal, background]. Format: [structure].
Constraints: [tone, length, things to avoid].
```

$ KAMAI KAISE HOGI

Prompt skill har AI service ki base hai. Ise sikhao, becho, ya bas khud use karke competitors se fast kaam deliver karo.

PRO TIP

Prompt aise likho jaise ek smart naye employee ko brief kar rahe ho jise project ka kuch pata nahi.

02 Role Prompting

CH 02 | PROMPT ENGINEERING MASTERY

15 MIN ACTION

// SAMAJH LO

> AI ko specific expert ka role dene se uski vocabulary, depth aur priorities badal jati hain. Marketer, lawyer aur teacher ek hi sawal ka alag jawab dete hain. Jis quality ka result chahiye, usi hisaab se role chuno, aur experience level aur style bhi jodo.

// STEP-BY-STEP

1. Precise role do jaise 10 saal ka senior SEO strategist
2. Role ko audience batao jisse wo baat kar raha hai
3. Style batao: friendly, formal, direct, storytelling
4. AI se kaho ki aapke idea ko challenge kare, sirf haan na kare

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Act as a direct-response copywriter with 15 years experience selling to busy parents. Critique my headline and give 10 stronger options.
```

$ KAMAI KAISE HOGI

Consulting-style roles se aap audits, strategies aur reviews bana sakte ho jinke clients premium price dete hain.

PRO TIP

AI ko critic banao. Honest critique tareef se zyada tezi se kaam sudharti hai.

03

Few-Shot: Example se Sikhao

CH 02 | PROMPT ENGINEERING MASTERY

15 MIN ACTION

// SAMAJH LO

> Apni style describe karne ki jagah dikhao. 2-3 examples paste karo aur usi pattern mein naya content maango. Isse few-shot prompting kehte hain, aur brand voice, tone ya format match karne ka ye sabse achha tarika hai.

// STEP-BY-STEP

1. 2 se 3 strong examples collect karo
2. Unhe Example 1, Example 2 jaise label karo
3. Usi pattern mein naye topic par content maango
4. Compare karo aur voice match hone tak refine karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Here are 3 examples of my brand tone: [examples]. Study the style, then write 5 new posts about [topic] in exactly the same voice.
```

$ KAMAI KAISE HOGI

Brand voice matching ek high-value service hai. Agencies un writers ko achha pay karti hain jo bilkul client jaisa likh sakein.

PRO TIP

Quantity se zyada quality examples matter karte hain. Apna best kaam use karo.

04 Step-by-Step Reasoning Prompts

CH 02 | PROMPT ENGINEERING MASTERY

15 MIN ACTION

// SAMAJH LO

> Complex kaam mein AI ko stages mein sochne ko kaho. Bade kaam ko chhote steps mein todo: research, outline, draft, edit. Pehle reasoning aur phir answer maangne se math, strategy aur analysis mein errors kam hote hain. Ek bade request ki jagah chhote prompts ki chain banao.

// STEP-BY-STEP

1. Project ko 4 se 6 stages mein baanto
2. Ek prompt mein ek stage karo aur har result review karo
3. Final answer se pehle AI se assumptions list karwao
4. Aakhir mein poore result ko check karne wala prompt do

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Let us solve this step by step. First list what
information is needed, then analyze options, then recommend
the best one with reasons: [problem].
```

$ KAMAI KAISE HOGI

Strategies, audits aur business plans jaise complex deliverables achhe paid hote hain, aur staged prompts unhe manageable bana dete hain.

PRO TIP

Agle stage par jaane se pehle har stage review karo. Shuru ki galtiyan baad mein badi ho jati hain.

05

Iteration aur Refinement

CH 02 | PROMPT ENGINEERING MASTERY

15 MIN ACTION

// SAMAJH LO

> Pehla answer draft hota hai, final nahi. Professionals chhote follow-ups se refine karte hain: chhota karo, specific banao, emotion badhao, data jodo, cliches hatao. 3-4 rounds ke baad aksar ek perfect prompt se bhi behtar kaam milta hai.

// STEP-BY-STEP

1. Pehla output padho aur galtiyan note karo
2. Specific feedback do, sirf try again mat bolo
3. 2 ya 3 alternative versions maango
4. Best parts ko khud jodkar final banao

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Rewrite the previous answer. Make it 30 percent shorter, remove generic phrases, add one concrete example, and use a confident but friendly tone.
```

$ KAMAI KAISE HOGI

Fast iteration ka matlab hai har hafte zyada clients serve karna. Speed aur quality se freelancers apna hourly income badhate hain.

PRO TIP

Bilkul batao kya badalna hai. Specific feedback se specific improvement aata hai.

06

Prompt Template Library

CH 02 | PROMPT ENGINEERING MASTERY

15 MIN ACTION

// SAMAJH LO

> Jo kaam baar baar hote hain unke liye reusable templates banao jisme [brackets] fill karne ke liye hon. Unhe service ke hisaab se organize karo: blog, ads, emails, design, code. 50 tested prompts ki library aapka kaam aadha kar sakti hai, aur aap use package karke bech bhi sakte ho.

// STEP-BY-STEP

1. Notion ya document mein categories wale folders banao
2. Jis prompt se excellent result mile use save karo
3. Specifics ko [brackets] se replace karo taaki reuse ho sake
4. Note karo kaunsa tool aur settings best chale

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Turn the following successful prompt into a reusable
template with clear [placeholders] and a short usage note:
[paste prompt].
```

$ KAMAI KAISE HOGI

Prompt packs Etsy, Gumroad aur Payhip par bikte hain. Ek well-targeted niche pack passive income de sakta hai.

PRO TIP

Bechne ya share karne se pehle har template 3 baar test karo.

07

Research aur Fact-Checking

CH 02 | PROMPT ENGINEERING MASTERY

15 MIN ACTION

// SAMAJH LO

> AI ek fast research partner hai, final authority nahi. Isse topics explore karo, lambe documents summarize karo, viewpoints compare karo aur questions tayar karo. Phir facts official sources, studies aur reliable news se confirm karo. Web access wale tools sources dete hain, unhe hamesha khol kar dekho.

// STEP-BY-STEP

1. Overview aur key terms ki list maango
2. Sources maango, phir khud khol kar padho
3. Statistics ko kam se kam 2 reliable sources se cross-check karo
4. Lambi reports ko key points mein summarize karwao

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Research [topic] for me. Give a summary, 5 key facts,
common myths, and list credible sources I should read to
verify each point.
```

$ KAMAI KAISE HOGI

Research aur reports billable services hain. Market research, competitor analysis aur industry briefs business owners ko bahut bikte hain.

PRO TIP

Original source dekhe bina koi statistic publish mat karo.

08 Custom Instructions, Projects aur GPTs

CH 02 | PROMPT ENGINEERING MASTERY

15 MIN ACTION

// SAMAJH LO

> Zyada tar AI tools mein aap apne baare mein, apni tone aur goals ke permanent instructions save kar sakte ho. Projects aur custom GPTs documents aur rules bhi store karte hain. Ek baar set karo aur har answer aapke standard ke kareeb se shuru hoga.

// STEP-BY-STEP

1. Chhota profile likho: role, audience aur preferences
2. Rules likho jaise hamesha simple English aur short paragraphs
3. Brand guides aur sample work upload karo
4. Har repeat service ke liye ek custom assistant banao

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create custom instructions for an assistant that writes social posts for [brand]. Include voice, audience, banned words, formatting rules and a sample output.
```

$ KAMAI KAISE HOGI

Clients ke liye custom assistants banana ek service hai. Kai businesses apne content par trained branded AI helper ke liye pay karenge.

PRO TIP

Jab bhi baar-baar corrections karne pade, instructions update karo.

01

Blog Writing with AI

CH 03 | CONTENT CREATION

15 MIN ACTION

// SAMAJH LO

> Aisa blog post jo rank kare aur readers ki help kare, usme research, structure aur insaani voice chahiye. AI se angles brainstorm karo, outline banao aur sections draft karo. Phir intro khud likho, apna experience jodo aur facts verify karo. Goal ye ho ki aap pehle se rank ho rahe pages se zyada useful bano.

// STEP-BY-STEP

1. Keyword chuno aur top 3 results study karo
2. H2 aur H3 headings wali outline banao
3. Ek-ek section draft karo aur har ek edit karo
4. Examples, images aur clear call to action jodo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Act as an SEO content writer. Create a detailed outline for a 1500-word blog post on [keyword] for [audience]. Include H2/H3 headings, key points and a meta description.
```

$ KAMAI KAISE HOGI

Blog writers per article ya monthly retainer par kamate hain. Apna blog ads, affiliates aur services se earn kar sakta hai.

PRO TIP

Introduction khud likho. Wahi poore article ka human tone set karta hai.

02 SEO Articles jo Rank Karein

CH 03 | CONTENT CREATION

15 MIN ACTION

// SAMAJH LO

> SEO articles keywords, intent aur structure ke around bante hain. Main keyword title, pehle paragraph aur kuch headings mein rakho, lekin naturally likho. FAQs, internal links aur helpful visuals jodo. Search engines un pages ko reward karte hain jo reader ko poori tarah satisfy karein.

// STEP-BY-STEP

1. 1 primary aur 3 secondary keywords chuno
2. Top-ranking pages ke format se match karo
3. Logon ke real sawalon se FAQ section banao
4. Apni site ke related pages se link karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Write an SEO-optimized article on [keyword]. Use a helpful, conversational tone, short paragraphs, a table, an FAQ with 5 questions, and suggest an internal-link plan.
```

$ KAMAI KAISE HOGI

Per word, per article ya package ke hisaab se charge karo. Proven rankings wale SEO writers premium rates lete hain.

AI Image Prompts: Basics

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> Achhe image prompts subject, style, lighting, camera, mood aur composition describe karte hain. Visual language jitni precise, result utna behtar. Midjourney, DALL-E aur Ideogram jaise tools detailed prompts follow karte hain aur variations bhi dete hain.

// STEP-BY-STEP

1. Main subject aur action se shuru karo
2. Style jodo: flat illustration, photorealistic, 3D, watercolor
3. Lighting, color palette aur camera angle jodo
4. Variations generate karo aur sabse strong chuno

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ A [subject] in [setting], [style] style, soft natural lighting, [color palette], shallow depth of field, centered composition, high detail, 16:9.
```

$ KAMAI KAISE HOGI

Chhote businesses jinke paas design budget nahi, unhe custom illustrations, stock images aur social graphics becho.

PRO TIP

Winning prompts ko unki images ke saath future reference ke liye save karo.

02

Logo Design Workflow

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> Logo simple, yaadgaar aur flexible hona chahiye. AI concepts fast explore karta hai, lekin professional touch shape, typography aur color ko Canva, Figma ya Illustrator jaise vector tool mein refine karne se aata hai. Deliver karne se pehle originality zaroor check karo.

// STEP-BY-STEP

1. Client se values, audience aur competitors ke baare mein poochho
2. AI se 10 se 20 concept directions generate karo
3. 3 chuno aur vector tool mein saaf tarike se dobara banao
4. Color, black, white aur icon-only versions deliver karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Describe 10 logo concepts for [brand] in [industry]. For each, suggest an icon idea, font style, color palette and the feeling it should create.
```

$ KAMAI KAISE HOGI

Logo packages modest se premium tak bikte hain, aur brand guidelines jodkar higher fees milti hain.

PRO TIP

Web par search karke confirm karo ki concept already trademarked nahi hai.

03 Canva mein Social Media Graphics

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> Canva aur AI tools se aap templates fast bana sakte ho. Fixed colors, fonts aur layouts se consistent style banao. Consistency brands ko professional dikhati hai aur har hafte ghante bachati hai.

// STEP-BY-STEP

1. Brand Kit set karo: colors, fonts aur logo
2. 5 reusable post templates banao
3. Fast drafts ke liye Magic Design aur Magic Write use karo
4. Har platform ke sahi size mein export karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Suggest a visual style guide for [brand]: 3 colors with hex codes, 2 fonts, layout rules and 5 post template ideas for Instagram.
```

$ KAMAI KAISE HOGI

Monthly packages becho, jaise har mahine 20 branded posts aur 4 stories.

PRO TIP

Kam colors aur zyada khali jagah use karo. Clean design busy design se behtar hai.

04 YouTube Thumbnails jo Click Karwayein

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> Thumbnail chhote phone screen par bhi padhne layak hona chahiye. Clear subject, strong contrast, ek emotion aur zyada se zyada 4 words rakho. AI backgrounds aur concepts bana sakta hai, aap text aur final touches jodo.

// STEP-BY-STEP

1. Apni niche ke top thumbnails study karo
2. Simple concept banao: face, object aur short text
3. AI tools se background generate ya edit karo
4. Thumbnail ke 2 versions test karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Give me 10 thumbnail concepts for a video titled [title].
For each, describe the main image, emotion, text overlay
(max 4 words) and color scheme.
```

$ KAMAI KAISE HOGI

YouTubers per thumbnail ya monthly pay karte hain. Fast aur consistent designers ko repeat kaam milta hai.

PRO TIP

Agar thumbnail size par padh nahi sakte, to simplify karo.

05

Product Mockups aur Ad Visuals

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> Mockups product ko real settings mein dikhate hain: desk par mug, model par shirt, phone par app. AI generation aur mockup tools mehngi photo shoots bachate hain. Dhyan rakho ki product khud accurate dikhe.

// STEP-BY-STEP

1. Clean product photos lo ya design file use karo
2. Mockup tools ya AI scene generation use karo
3. Product ko 3 lifestyle settings mein rakho
4. Lighting aur shadows consistent rakho

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a product photography scene: [product] on a
[surface] in a [setting], soft window light, warm tones,
minimal props, commercial photography style.
```

$ KAMAI KAISE HOGI

E-commerce brands product visuals, listing images aur ad creatives ke liye pay karte hain.

PRO TIP

Real product ko kabhi galat mat dikhao. Accuracy se refunds aur complaints bachte hain.

06

Brand Identity Kit

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> Brand identity mein logo, color palette, typography, imagery style aur voice shamil hote hain. Brand kit se har aage ka design fast aur consistent banta hai. AI directions suggest kar sakta hai, aap ek cohesive final system banate ho.

// STEP-BY-STEP

1. Brand personality ko 5 words mein define karo
2. 1 primary, 2 secondary aur neutral colors ka palette banao
3. Ek heading font aur ek body font chuno
4. Sab kuch ek short brand guide mein compile karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a brand identity brief for [business]. Include mission, personality, color palette with hex codes, typography pairing, imagery style and tone of voice.
```

$ KAMAI KAISE HOGI

Brand identity packages higher-ticket projects hain aur ongoing design kaam laate hain.

PRO TIP

Kam choices se strong brands bante hain. Fonts aur colors limit karo.

07

Infographics aur Data Visuals

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> Infographics complex information ko aasan visuals mein badalte hain. Ek message se shuru karo, data simple karo aur nazar ko upar se neeche guide karo. AI information organize kar sakta hai aur layouts suggest kar sakta hai, final graphics design tools banate hain.

// STEP-BY-STEP

1. Ek message aur 3 se 5 key facts chuno
2. Layout chuno: steps, comparison, timeline
3. Icons aur limited color palette use karo
4. Neeche sources likho

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Organize this information into an infographic outline
with a title, 5 sections, short text for each, and
suggested icons and chart types: [data].
```

$ KAMAI KAISE HOGI

Companies blogs, reports aur social media ke liye infographics ke paise deti hain. Ye backlinks bhi laate hain.

PRO TIP

Ek infographic, ek idea. Sab kuch thoonsne se bacho.

08 Presentations aur Pitch Decks

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> Great presentations ek story batate hain: problem, solution, proof, next step. Bada text, strong images aur har slide par ek idea rakho. AI tools slide content aur layouts ka draft bana sakte hain jise aap polish karte ho.

// STEP-BY-STEP

1. Story ko 8 se 12 slides mein outline karo
2. Har slide ka ek headline simple bhasha mein likho
3. Lambe bullets ki jagah visuals jodo
4. Rehearse karo aur extra cheezein hatao

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a 10-slide pitch deck outline for [business]. For each slide, give a headline, 3 short bullet points and a visual suggestion.
```

$ KAMAI KAISE HOGI

Presentation design startups, trainers aur consultants ke liye ek well-paid niche hai.

PRO TIP

Agar slide padhne mein 5 second se zyada lage, to use split karo.

09

Image Editing: Background, Retouch, Upscale

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> AI editing tools seconds mein background hatate hain, objects erase karte hain, lighting fix karte hain, images expand karte hain aur low-resolution photos upscale karte hain. Ye simple jobs hain jinke clients baar baar paise dete hain, khaaskar e-commerce sellers aur photographers.

// STEP-BY-STEP

1. Background removal aur object erase ki practice karo
2. Scenes extend ya badalne ke liye generative fill seekho
3. Print ke liye low-quality images upscale karo
4. Ek preset se bahut saari images batch process karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ List 10 common image editing problems clients have with
product and portrait photos, and the best AI tool and
settings to solve each one.

PRO TIP

Original file hamesha rakho aur dono versions deliver karo.

10

Print-on-Demand Designs

CH 04 | GRAPHIC DESIGNING WITH AI

15 MIN ACTION

// SAMAJH LO

> Print-on-demand mein aap design upload karte ho aur partner shirts, mugs, posters print aur ship karta hai. Stock rakhna nahi padta. AI niches ke liye unique designs banata hai, lekin originality check karna aur platform rules follow karna aapki zimmedari hai.

// STEP-BY-STEP

1. Aisi niche chuno jiske buyers passionate hon
2. Us niche mein 20 design variations banao
3. Printify, Redbubble ya Etsy par upload karo
4. Test karo, sales track karo aur winners improve karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Give me 30 t-shirt slogan and design ideas for [niche audience]. Keep them original, positive and suitable for print. Add a short visual description for each.
```

$ KAMAI KAISE HOGI

01 Performance Marketing Fundamentals

CH 06 | PERFORMANCE MARKETING

15 MIN ACTION

// SAMAJH LO

> Performance marketing mein aap sirf measurable results ke liye pay karte ho jaise clicks, leads ya sales. Key metrics: CTR, CPC, CPL, CPA, conversion rate aur ROAS. Numbers samajhne se decide hota hai kya scale karna hai aur kya band.

// STEP-BY-STEP

1. Metric formulas aur achha number kaisa hota hai, seekho
2. Goal set karo: leads, sales ya app installs
3. Apna break-even cost per sale calculate karo
4. Tracking install karo: pixel, tags aur conversion events

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Explain CTR, CPC, CPA, CPL, conversion rate and ROAS with formulas and an example. Then create a break-even calculation for a product priced at [price] with [margin] margin.
```

$ KAMAI KAISE HOGI

Performance marketers fee plus bonus kamate hain, aksar ad spend ya profit ke percentage par.

PRO TIP

Tracking ke bina ads mat chalao. Data ke bina sirf andaza hota hai.

02

Meta Ads Copy aur Targeting

CH 06 | PERFORMANCE MARKETING

15 MIN ACTION

// SAMAJH LO

> Facebook aur Instagram ads clear offer, strong creative aur tested audiences ke saath best chalte hain. Broad se shuru karo aur achhe creative se refine karo. AI se aap bahut saare copy angles jaldi test ke liye generate kar sakte ho.

// STEP-BY-STEP

1. Ek offer aur ek audience pain define karo
2. 5 headlines aur 3 primary texts likho
3. 3 visual variations banao
4. Chhote tests chalao aur winners rakho

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Write 5 Meta ad variations for [product] targeting
[audience]. For each, give a headline under 40 characters,
primary text under 125 characters, and a call to action.
Use different angles: pain, benefit, proof, urgency,
curiosity.
```

$ KAMAI KAISE HOGI

Local brands aur online sellers ke liye Meta ads manage karna freelance ki mainstay service hai.

PRO TIP

Pehle creative test karo. Wahi aksar sabse bada lever hota hai.

03 Google Search Ads

CH 06 | PERFORMANCE MARKETING

15 MIN ACTION

// SAMAJH LO

> Search ads un logon ko pakadte hain jo already kharidne ke liye search kar rahe hain. Success keyword intent, ad relevance aur landing page quality par depend karti hai. Exact aur phrase match use karo, negative keywords jodo aur search se match karte ads likho.

// STEP-BY-STEP

1. High-intent keywords chuno
2. Closely related keywords ko ad groups mein group karo
3. 15 headlines aur 4 descriptions wale responsive ads likho
4. Waste rokne ke liye negative keywords jodo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a Google Search ad set for [service] in [city].
Give 15 headlines (max 30 characters), 4 descriptions (max
90 characters), 20 keywords and 20 negative keywords.
```

$ KAMAI KAISE HOGI

Search ads strongly convert karte hain, isliye businesses achhe management ke liye achha pay karte hain.

PRO TIP

Har hafte search terms report dekhkar wasted spend kaato.

04 Ad Creative Testing

CH 06 | PERFORMANCE MARKETING

15 MIN ACTION

// SAMAJH LO

> Creative performance decide karta hai. Ek baar mein ek variable test karo: hook, image, offer ya format. Decide karne se pehle har test ko enough data lene do. AI ideas, scripts aur variants generate karta hai, kya test karna hai ye aap decide karte ho.

// STEP-BY-STEP

1. Variables list karo: hook, visual, headline, offer, call to action
2. Barabar budget ke saath 3 se 5 variations launch karo
3. Judge karne se pehle enough clicks ya results ka intezaar karo
4. Winners document karo aur nayi variations banao

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a testing plan for ads promoting [product]. List 5 hypotheses, which variable each tests, how to measure success and how long to run each test.
```

$ KAMAI KAISE HOGI

Creative strategists ki bahut value hai. Monthly creative testing ko service ki tarah offer karo.

PRO TIP

Winning ads ki swipe file rakho aur seekho wo kyun chale.

05

Landing Page Conversion

CH 06 | PERFORMANCE MARKETING

15 MIN ACTION

// SAMAJH LO

> Landing page ka ek hi goal hota hai. Usme clear headline, benefits, proof, short form aur dikhne wala call to action chahiye. Fast loading aur mobile design zaroori hain. Yahan chhote improvements ad spend badhaye bina results double kar sakte hain.

// STEP-BY-STEP

1. Headline ko ad ke promise se match karo
2. Icons ke saath 3 se 5 key benefits likho
3. Testimonials, logos ya numbers se proof jodo
4. Call to action above the fold rakho

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Review this landing page copy for conversion. Give a score and list 10 specific improvements to the headline, benefits, proof, form and call to action: [paste copy].
```

$ KAMAI KAISE HOGI

Conversion rate optimization premium service hai kyunki wo khud apna kharcha nikaalti hai.

PRO TIP

Distractions hatao. Har extra link conversions kam karta hai.

06

Retargeting aur Remarketing

CH 06 | PERFORMANCE MARKETING

15 MIN ACTION

// SAMAJH LO

> Zyada tar visitors pehli visit par nahi kharidte. Retargeting un logon ko ads dikhati hai jinhone visit kiya, video dekha ya cart mein add kiya. Message stage ke hisaab se ho: yaad dilana, bharosa dena ya chhota incentive. Ye aksar sabse sasta traffic hota hai.

// STEP-BY-STEP

1. Pixel install karo aur visitor audiences banao
2. Behavior se segment karo: product dekha, cart mein add kiya
3. Har segment ke liye specific message banao
4. Frequency limit karo taaki log irritate na hon

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Write 5 retargeting ad messages for people who added
[product] to their cart but did not buy. Use reassurance,
urgency, social proof, FAQ and a small bonus.
```

$ KAMAI KAISE HOGI

Retargeting setups clients ke results fast badhate hain aur proposals mein samjhana aasan hai.

PRO TIP

Budget bachane ke liye buyers ko retargeting se exclude karo.

07

Analytics aur Reporting

CH 06 | PERFORMANCE MARKETING

15 MIN ACTION

// SAMAJH LO

> Reports numbers ko decisions mein badalti hain. Google Analytics, Search Console aur ad platform dashboards use karo. Clients jaanna chahte hain kya hua, kyun hua aur aap aage kya karoge, simple bhasha mein.

// STEP-BY-STEP

1. Tracking aur conversion goals set karo
2. Looker Studio mein simple dashboard banao
3. Har hafte review karo: spend, results, cost per result
4. Simple bhasha mein summary aur next actions likho

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Turn this campaign data into a client report with summary, key wins, problems, insights and 5 next actions in simple language: [paste data].
```

$ KAMAI KAISE HOGI

Clear reporting se clients nahi chhodte aur aapki retainer fee justify hoti hai.

PRO TIP

Pehle result batao, phir explain karo. Executives sirf pehla paragraph padhte hain.

08 Budget Allocation aur Scaling

CH 06 | PERFORMANCE MARKETING · 15 MIN ACTION

// SAMAJH LO

> Sirf wahi scale karo jo proven ho. Budget dheere badhao, lagbhag har kuch din mein 20 percent, aur cost per result dekhte raho. Risk ko campaigns mein baanto aur naye ideas ke liye testing budget rakho. Scaling patience aur data ka khel hai.

// STEP-BY-STEP

1. Pehle confirm karo ki campaign chhote spend par profitable hai
2. Monitor karte hue budget dheere badhao
3. Winners ko naye audiences mein duplicate karo
4. Losers jaldi pause karo aur unse seekho

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a 30-day budget plan for ads with [total budget] across testing, scaling and retargeting. Include rules for when to pause, increase or duplicate campaigns.
```

$ KAMAI KAISE HOGI

Performance fees aksar ad spend ke saath badhti hain. Skilled scalers growing brands ke liye bahut valuable hote hain.

PRO TIP

Ek baar mein ek hi cheez badlo taaki pata chale result kis wajah se aaya.

09

Affiliate Marketing with AI

CH 06 | PERFORMANCE MARKETING

15 MIN ACTION

// SAMAJH LO

> Affiliate marketing mein products recommend karke commission milta hai. Honest reviews, comparisons aur tutorials se trust banao. AI research aur content fast karta hai, lekin aapki real testing aur opinions use credible banate hain. Affiliate links hamesha disclose karo.

// SAMAJH LO

> Winning proposal dikhata hai ki aapne problem samjhi aur clear raasta batata hai. Chhota rakho: unke goal se shuru karo, batao kaise help karoge, ek relevant sample dikhao aur ek smart sawal poochho. Personalization lambe templates ko haraati hai.

// STEP-BY-STEP

1. Job post 2 baar padho aur asli goal note karo
2. Apni biography nahi, unki problem se shuru karo
3. Ek relevant sample aur simple plan share karo
4. Sawal aur clear next step par khatam karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Write a proposal under 150 words for this job post:
[paste]. Start with their goal, show I understand the
challenge, mention a relevant sample, outline my approach
and ask one smart question.
```

$ KAMAI KAISE HOGI

Roz quality proposals bhejo. Chhota win rate bhi jaldi income banata hai.

PRO TIP

Same proposal kabhi copy-paste mat karo. Clients samajh jate hain.

05

Apni Services ki Pricing

CH 08 | FREELANCING AUR KAMAI

15 MIN ACTION

// SAMAJH LO

> Value aur scope ke hisaab se price karo, sirf ghanton ke hisaab se nahi. Fixed-price packages kharidne ka decision aasan banate hain. 3 tiers offer karo: basic, standard aur premium. Demand aur results badhne par price badhao, aur khud ko itna sasta mat becho ki kaam se chidh ho jaye.

// STEP-BY-STEP

1. Apna minimum monthly income target calculate karo
2. Har deliverable ka time estimate karo aur margin jodo
3. Clear deliverables ke saath 3 packages banao
4. Har kuch clients ke baad prices badhao

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a pricing structure for my [service] with 3 packages (basic, standard, premium), listing deliverables, delivery time, revisions and a suggested price range for [country or market].
```

$ KAMAI KAISE HOGI

Packages aur retainers predictable monthly income dete hain.

PRO TIP

Middle package ko best value dikhao. Zyada tar clients wahi chunte hain.

06

Marketplaces Ke Bahar Clients Dhundho

CH 08 | FREELANCING AUR KAMAI

15 MIN ACTION

// SAMAJH LO

> Marketplaces mein bheed hoti hai aur wo fees lete hain. Direct clients LinkedIn, referrals, cold email, local networking aur content se aate hain. Kuch helpful ke saath reach out karo, jaise quick audit, aur real relationships banao.

// STEP-BY-STEP

1. Ideal client define karo aur 100 prospects ki list banao
2. Har business study karo aur ek improvement dhundo
3. Free tip ke saath chhota helpful message bhejo
4. 2 ya 3 baar politely follow up karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Write a 3-message cold outreach sequence for [service]
targeting [client type]. Each message must be under 90 words,
start with a specific observation and offer a free audit.
```

$ KAMAI KAISE HOGI

Direct clients aksar marketplace clients se zyada pay karte hain aur lamba rukte hain.

PRO TIP

Roz 10 quality messages bhejo. Consistency se pipeline banti hai.

07

Client Communication aur Onboarding

CH 08 | FREELANCING AUR KAMAI

15 MIN ACTION

// SAMAJH LO

> Clear communication trust banati hai aur problems rokti hai. Scope, timeline, price aur revisions likhit mein confirm karo. Kickoff questionnaire use karo, progress updates share karo aur response time ki expectations set karo. Khush clients dobara kaam dete hain aur refer karte hain.

// STEP-BY-STEP

1. Welcome message aur questionnaire bhejo
2. Scope, milestones aur revision limits likhit mein agree karo
3. Chhote progress updates share karo
4. Delivery ke baad testimonial maango

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a client onboarding questionnaire and welcome email
for a [service] project. Include questions about goals,
audience, brand, examples they like, deadlines and approvals.
```

$ KAMAI KAISE HOGI

Achhi communication single projects ko repeat kaam aur referrals mein badal deti hai.

PRO TIP

Timelines mein kam promise karo aur zyada deliver karo.

08 Quality Control ke Saath Fast Delivery

CH 08 | FREELANCING AUR KAMAI

15 MIN ACTION

// SAMAJH LO

> AI aapka pehla draft fast karta hai, lekin quality aapki reputation hai. Deliver karne se pehle checklist use karo: accuracy, originality, brand fit, spelling, formatting aur goal. Fresh nazar se review karo aur zarurat par plagiarism aur fact checks chalao.

// STEP-BY-STEP

1. Har service ke liye quality checklist banao
2. Outputs ko client brief se compare karo
3. Voice, accuracy aur originality ke liye edit karo
4. Neat aur organized format mein deliver karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a quality-control checklist for delivering
[deliverable] to a client. Include accuracy, originality,
brand voice, formatting, goals and final checks.
```

$ KAMAI KAISE HOGI

Consistent quality se five-star reviews milte hain, jo aur high-paying kaam laate hain.

PRO TIP

Bhejne se pehle ek ghanta ruk kar dobara padho. Fresh nazar galtiyan pakadti hai.

09

Freelancer Se Agency Tak Scale

CH 08 | FREELANCING AUR KAMAI

15 MIN ACTION

// SAMAJH LO

> Jab demand aapke time se zyada ho jaye, to systems banao. Workflows document karo, specialists hire karo, project tools use karo aur prices badhao. Agency outcomes aur process bechti hai, sirf ghante nahi. Pehle wo kaam outsource karo jo aapko sabse kam pasand hain.

// STEP-BY-STEP

1. Apna workflow aur prompts document karo
2. Repeat tasks ke liye ek part-time helper hire karo
3. Notion ya Trello jaise project tools use karo
4. Retainers aur productized services par shift karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create an SOP (standard operating procedure) for
delivering [service], with steps, tools, prompts, quality
checks and instructions a new team member can follow.
```

$ KAMAI KAISE HOGI

Agencies leverage se kamati hain: aapke systems plus dusre logon ki skills.

PRO TIP

Hire karne se pehle systemize karo. Log chaos follow nahi kar sakte.

10 Productized Services

CH 08 | FREELANCING AUR KAMAI

15 MIN ACTION

// SAMAJH LO

> Productized service mein scope, price aur timeline fixed hota hai, jaise: 10 blog posts ek fixed fee mein, ya 5 din mein landing page. Clear packages selling time kam karte hain aur aapka kaam kharidna aur repeat karna aasan banate hain.

// STEP-BY-STEP

1. Aisa result chuno jo aap baar baar deliver kar sako
2. Scope, price, time aur exclusions define karo
3. Simple sales page aur order form banao
4. Har delivery ke saath process refine karo

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Design 3 productized services for [skill] with name, exact deliverables, price, timeline, what is excluded and a one-line sales pitch for each.
```

$ KAMAI KAISE HOGI

Productized services predictable aur scalable income ka sabse aasan raasta hain.

PRO TIP

Batao kya included nahi hai. Isse scope creep rukta hai.

11 Personal Brand aur Authority

CH 08 | FREELANCING AUR KAMAI 15 MIN ACTION

// SAMAJH LO

> Log unhe hire karte hain jinhe wo jaante aur trust karte hain. Consistently useful content share karo, apni story batao, results dikhao aur community se engage karo. Clear personal brand se clients aapke paas aate hain aur wo price bhi zyada accept karte hain.

// STEP-BY-STEP

1. Apni niche aur wanted clients define karo
2. Hafte mein 3 baar helpful content post karo
3. Testimonials aur case studies jama karo
4. Enquiry form ke saath simple website banao

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Create a 30-day personal brand content plan for a [skill] freelancer targeting [client type]. Include post topics, formats, stories and a call to action for each week.
```

$ KAMAI KAISE HOGI

Strong brand price comparison kam karta hai aur behtar clients laata hai.

PRO TIP

Bechne se pehle useful bano. Authority generosity se badhti hai.

12 Contracts, Invoices aur Taxes

CH 08 | FREELANCING AUR KAMAI

15 MIN ACTION

// SAMAJH LO

> Khud ko protect karo aur professional dikho. Simple contract mein scope, price, payment terms, revisions, ownership aur cancellation likho. Invoices time par bhejo, saari income aur expenses record karo aur apne local tax rules seekho ya accountant se milo.

// STEP-BY-STEP

1. Har project ke liye clear written agreement use karo
2. Kaam shuru karne se pehle deposit maango
3. Time par invoice bhejo aur polite reminders do
4. Income track karo aur taxes ke liye paisa alag rakho

prompt.txt — COPY-PASTE PROMPT (English mein paste karo)

```
$ Draft a simple freelance service agreement template
covering scope, timeline, payments, revisions, ownership,
confidentiality and cancellation. Add a note that it should
be reviewed by a legal professional.
```

$ KAMAI KAISE HOGI

Achhi admin habits aapki income protect karti hain aur bade clients ke saath kaam karne dete hain.

PRO TIP

30 se 50 percent deposit lo. Isse serious clients filter hote hain.

Aaj Hi Shuru Karo.
Roz Seekho, Roz Kamao.

AI unhe replace nahi karega jo ise seekh lete hain. Wo un kaamon ko replace karega jo dheere kiye jate hain. Ek skill chuno, aaj ek prompt chalao, is hafte ek result deliver karo aur lage raho. Har practice ke saath aapki income badhti hai.
